

# Atelier *Solutions à partager* au Rwanda

Florence Gibert et Claire Galvez-Wagler  
Resilience Now – ARECO Rwanda Nziza  
2017

# Un objectif double

Protéger la biodiversité  
de la forêt de Cyamudongo

Améliorer les conditions  
de vie des communautés

**Forêt de Cyamudongo  
Parc National de Nyungwe  
Rwanda**

# Défis pour la forêt

**Braconnage**  
**Extraction de minerais**  
**Coupe du bois (combustible et de construction)**  
**Agriculture illégale**  
**Feu pour la collecte du miel sauvage**  
**Collecte de fourrage**  
**Collecte de substances médicinales**  
...

# Défis pour les communautés

**Pauvreté**  
**Changement climatique**  
**Raréfaction des ressources naturelles**  
**Raréfaction de la terre arable**  
**Erosion des sols**  
...

# PROGRAM

Le moyen: atelier  
« Solutions à partager »

MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY	SUNDAY
<p>9h opening</p>  <p>Assessment</p>			 <p>Group 1</p>		 <p>SOLUTION</p>	 <p>KUMENYA IBIGAB AMAHWE BAFITE IBIBAZO BAKUKA NABYO -UKO GABISOHOKA NI?</p>
					 <p>-KUMENYA AHANTU</p>	 <p>KUREBA IMBARABA TWIFITEHO</p>

MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY	SUNDAY
 <p>Group 2</p>		 <p>Action Plan</p>	<p>15h Closing ceremony</p>	 <p>INPINDUKA Changement</p>	 <p>KUGUKA UBUNENYI (KWICA)</p>	 <p>KUMENYA GUKORA IGENAMISAMBI</p>
				 <p>KUGIRA UBUNENYI NUGUTANGA IBYO BAHENYE</p>		

A photograph of a man with a beard, wearing an orange t-shirt, sitting in the driver's seat of a car. He is holding a black mobile phone to his ear with his left hand and has his right hand on the steering wheel. The car's interior, including the dashboard and side mirror, is visible. The background shows a blurred green landscape. A semi-transparent grey box with rounded corners is overlaid on the top left of the image, containing text.

## **Travail préalable : recherche des initiatives**

- agricoles, énergétiques ou de génération de revenus

- développées dans le pays

- qui améliorent les conditions de vie

**ET permettent une utilisation durable des ressources naturelles**

# Listing of projects reducing the pressure on natural resources in Rwanda – in the field of agriculture, energy and income generation

This listing is provisory: it will be completed during the duration of the project

Project holder information							
#	Organization	Project Name	Project Type	Beneficiaries	Thanks to the project, what are the beneficiaries doing today that they did not do before?	Thanks to the project, what has changed in the lives of beneficiaries?	Thanks to the project, how has pressure on natural resources decreased?
1	REDO	Socio economic improvement of HMP around Nyungwe National Park	Agriculture / organic manure and honey	Historically Marginalised People	Beneficiaries adopted improved agriculture technologies and practice Beneficiaries produce organic manure that was costing them very much before Beneficiaries learnt how to read and write, how to count their harvest and the money earned from it. Beneficiaries initiated income generating activities (goat rearing for producing manure and money and modern beekeeping).	Agriculture production has increased Beneficiaries ensure their food security Beneficiaries pay medical insurance Thanks to the money earned from the harvest, beneficiaries repaired their house destroyed by the heavy rain of november 2015	Compost making implies soil conservation.
2	REDO-ARECO	Kiln construction and fuel stove dissemination	Energy / improved cook stoves	Community living around Cyamudongo forest	Beneficiaries use kilns, make improved stoves and repair them when damaged, and sell them.	Income has increased thanks to stove selling Beneficiaries have bought small animals (pigs)	The improved stoves reduce the quantity of fire wood used in households and therefore reduce the pressure on tree cutting
3	REDO	Beekeeping for biodiversity conservation and livelihood improvement around Volcanoes National Park.	Agriculture / honey	Community living around Volcanoes National Park	Beneficiaries produce and process honey with a new technology and processing Beneficiaries use new skills of cooperative management and leadership	Honey production has improved and income has increased Thanks to this increased income, beneficiaries constructed their house and pay school fees for their children as well as health insurance	The bees contribute to biodiversity conservation through pollination
4	Young Women Christian Association (YWCA)	Accelerating progress towards rural women empowerment	Agriculture, Gender	Rural women grouped in association of producers (number of direct beneficiaries: 150 women)	Beneficiaries practice some gender equity principles Beneficiaries raise poultry for business	With the money earned, beneficiaries have developed a new vision, constructed their houses and can pay their health insurance	The organic manure produced improve the soil productivity
5	MINAGRI en collaboration avec APEFA	Land Husbandry Water and Hygenic (LWH) - HIMO Project (Haute intensite de main d'oeuvres)	Agriculture	Rural community living around Gishwati -Mukura National Park	N/A HIMO project for terracing The beneficiaries put their savings in bank accounts and get micro finance loans (salaries for terracing were paid through banks accounts)	Beneficiaries solve their financial problems through microloans from a bank Beneficiaries can secure their savings in a bank account	Problems of soil erosion are mitigated
6	Solidarité pour l'Epanouissement des veuves et des orphelins visant le travail et l'autopromotion (SEVOTA)	Youth and widows support trough income generating activities	Agriculture, Cooperative	Cooperative of widows, former prostitutes...	Beneficiaries use a saving and self help system they have started Beneficiaries take care of themselves and their children Beneficiaries implement small scale agriculture projects (rabbits, vegetable, goats)	Beneficiaries have developed a culture of joining their hands and working together	
7	Forest for Hope Association (FHA)	Supporting to local cooperatives to develop community ecotourism activities for income generation around GISHWATI-MUKURA National park	IGR / crafting, ecotourism	Rural women involved in craft activities	Beneficiaries make handicrafts products that they sell to tourists (basket) Beneficiaries use sustainably the row material taken from the forest Beneficiaries work with banks for savings and microloans	Beneficiaries earn income that allow them to cover their dayly needs and the school fees for their children. Beneficiaries house holds have been improved	Beneficiaries use sustainably the row material taken from the forest
